

We like to push the design envelope with possibilities in playground equipment. In fact, we think innovation really revs up the fun! We lead the industry in creating active, challenging and healthy forms of play, and we plan to continue to shape the playground equipment industry's future. Our industry-leading innovations include:

- Multi-Level play structures such as the Mega Tower™ for more play value
- Convertible play components that flip from slide to climber and vice-versa, for twice the versatility and fun and half the investment
- The industry's longest and tallest slides
- Big Timber™ Play Event with a classic tree house look that sparks imagination
- 270°, 360°, 405°, 630°, and 855° spiral slides for extra thrills
- Exclusive Gator Grip™ material for improved little hands gripping comfort
- VersaLok® clamp system that simplifies installation with multiple components
- Split bar socket for easier assembly, replacement or upgrades
- Entry canopies for slides that promote proper use and improved safety
- Flexible rubber swing seats that improve safety and comfort
- Multiple deck heights starting at 6 inches and expanding upward in 6-inch increments

Our innovation leads to safe, versatile and stimulating play equipment that maximizes fun and exercise – all at a cost that fits your budget and leaves plenty of room to grow.
