

For hours of towering fun and challenge, our exclusive 25-foot Mega Tower system gets the nod. Mega Tower is the first three-story octagonal (eight-sided) or heptagonal (seven-sided) play structure found anywhere with an amazing range of options and curb appeal.

Choose from Mega Tower with three decks at 2, 8 and 14 feet or Junior Mega Tower with two decks at 2 and 8 feet. Add any of Miracle's 400 activity options on each deck, including one of four thrilling 14-foot high slides. The third level deck is fully enclosed for a completely contained and safe play area. Mega Tower provides up to 77 square feet per deck for more play room without taking up more space or increasing surfacing costs.

With features like these, it's easy to see why Mega Tower is packed with play value, helps promote physical fitness, and is perfect for large installations:

- Durable, long life structure thanks to hefty 5-inch diameter steel posts
- Multiple heights so kids have more choices and challenges
- Can be integrated with Center Stage®, Kids' Choice® and Tots' Choice®
- Available in ADA-compliant and Boundless-certified versions for open access
- External Crawl Tube at the 8- and 14-foot levels safely pumps up adrenaline, excitement and challenge
- Customizable Lookout Panels let kids explore and think "outside the box"

Let kids experience playground fun at a whole new level! Add our Mega Tower to your park or playground, and watch how much longer kids play and burn calories.
