

To: All Playground Professionals

Subj: CPSIA 2008 Legislation

On August 14, 2008, President Bush signed into law the Consumer Product Safety Improvement Act (CPSIA 2008). This law was enacted, in part, to reduce or eliminate concentrations of lead, certain heavy metals and certain phthalates from "Children's Products". The Consumer Products Safety Commission (CPSC) classifies commercial playground equipment as "Children's Products" for the purposes of the CPSIA 2008.

Miracle Recreation is pleased to confirm that our products comply with all applicable requirements of the CPSIA 2008. In fact, we include a certificate of compliance with every playground shipment.

If you are considering the purchase of commercial playground equipment, we urge you to require all prospective manufacturers to provide the following information, before making a purchase:

1. Written confirmation that their products meet the requirements of CPSIA 2008
2. Physical copies of Certificates of Compliance for each of its products and components as required by the CPSIA 2008.

For more specific information on the CPSIA 2008, please refer to the CPSC's website at: [www.cpsc.gov](http://www.cpsc.gov). Please note that the CPSC Guidelines for Public Playground Safety are separate and distinct from the CPSIA 2008.

Sincerely,  
Miracle Recreation Equipment Co.
