

Rain Drop

**Imagination  
Guide**

## Discovering Imagination

For over 35 years, Rain Drop Products has been making waves in the children's aquatic play industry.

## Everyone Can Play

Rain Drop is a leader in inclusive play. We strive to maximize the sensory experience for children of all abilities on every project.

## Creature Features

Creature Features are a great way to bring a cost effective themed look to your project.

## Structures

Promote problem solving play with a variety of cause-and-effect water sprays on our structures.

## Cannons and Spinners

Add interactivity and excitement to your project with our cannons and spinners. In groups of two or more, these features allow the children to have targeted spray play with each other.

# Slides

Whether you need a small tot-sized slide or a large racer slide, Rain Drop can meet your needs.

## Surface Sprays

We offer a wide variety of surface sprays that gush and jump out of the ground. Surface sprays are a big hit with younger children.

**Custom Theming**

With the addition of our five axis CNC router, Rain Drop has the capability to take a simple sketch or idea and bring it to life. Rain Drop offers a full line of support documentation. Feature cut sheets, specifications, layout drawings, equipment details and operation manuals are all available to help your project run smoothly.

**AUTODESK**

# The Omnipod Interface

Add one of our Surface Sprays to the Omnipod for a fun, economical solution.

Upgrade your Omnipod to an above ground feature to give your project a fresh look.

# iSplash

## S.M.A.R.T TECHNOLOGY

Our proactive technology can run diagnostic checks, report and log data, and control water chemistry and pressure.

## ADVANCED SEQUENCE CAPABILITY

Offers an unlimited number of inputs/outputs for sequencing.

## ONLINE TECHNICAL SUPPORT

Allows remote end users and our technicians total onsite control, personal training, and maintenance.

## LIGHTS, SOUNDS & VIBRATIONS

Create completely interactive environments to maximize sensory experiences, promoting play for all abilities.

## TOTAL CONTROL

The app allows control of other areas of the park such as lighting, security cameras, or irrigation controls.

## REMOTE ACCESS

Web-accessible via secure online portal, all control capabilities on-site can also be performed remotely, including operation and reprogramming.
