How to get started

From your original vision to the last finishing touches being applied to the structure, our team of designers and engineers will work with you to outline a clear plan of action. We will turn your custom playground into the destination attraction you dreamed.

Miracle Recreation has coordinated efforts with multiple outside vendors, including themed construction fabricators, sculpture manufacturers and local artists, to help create these custom and themed playground installations.

1 **Dream** Amazing playground designs begin with extraordinary vision. By taking cues from your surrounding areas and activities, Miracle's design team will help you create conceptual designs that will enhance your future play space.

2 **Design** Our talented team will work with you to design the unique play space you envisioned. With a combination of standard playground equipment, custom sculptures and components, and themed accessories, our team will begin to bring your ideas to life. Drawings and concepts will be provided to you, outlining the interpretation of the ideas you submitted.

3 **Decide** After all concepts are reviewed, final drawings, project costs, and timelines will be established so we can get to work on building your dream playground!

4 **Develop** Our expert staff will create the high-quality products you have come to expect from Miracle while adhering to all industry safety standards.
